

REVIEW OF TRADE BY DUN & CO.

THEIR REPORT SAYS PRICES
ARE UNSTEADY.

Efforts to Readjust Them is the Leading Feature of Trade—Woolen Mills Close to Wait For Orders—Failures For the Week Are More Than For This Time Last Year.

New York, Nov. 9.—R. G. Dun & Co.'s Weekly Review of Trade says:

"It has been a broken week, and just before and after elections in the most important states operations rarely have significance. Business may be largely affected in time, but as yet there is scarcely any indication what the effect will be. The controlling power at present is the effort to readjust prices after the remarkable rise of last summer in important materials and products, with the struggle of great combinations to prevent decline.

"The purchase of competing interests now gives the H. C. Frick company ownership of 11,686 out of 17,934 coke ovens in the Connellsville region, and practical control of more than three-quarters, and an advance in the price of coke to \$2 is expected, as the Carnegie company has been buying up supplies at low prices for months in advance.

"Yet the price of Bessemer pig is lower, \$14.75 to Pittsburgh, and billets are lower, because there is scarcely any demand for rails at the combination price; structural contracts are but few, and the demand for wire and wire nails has been curtailed by the rail trust's advance of price 176 per cent in four months. Large Western and Eastern orders for cars help the demand for bar, but finished products are generally sold below quotations, which are now lower than they were two months ago. Copper is a shade weaker at 11.75 cents for lake, with slow buying; tin a fraction lower at 14.55 cents, with the visible supply 27,675 tons, against 22,737 a year ago, but lead is a trifle lower at 3.3 cents. The anthracite combination seems ready to make higher prices.

"Many woolen mills are closing to wait for orders, though the demand is fairly satisfactory for some dress goods and worsteds, and the Washington mills open clay worsteds at 10 cents advance. But prices of these and most qualities of woollens are still uncertain, for manufacturers do not know yet what they have to meet. The reaction from speculative prices of wool abroad, and the stiffness of speculative and country holders here, reduce sales to 5,621,350 pounds for the week, against 8,215,000 for the same week of 1892, but stocks of foreign wool here are very large.

"Cotton mills do well, as the halt and hesitation in cotton does not stop buying of goods, and many believe goods safe at current prices, even if cotton is not. The market for raw cotton is held at 8.81 cents, in spite of a highly respectable estimate of only 6,435,000 bales for the year. Even at that the supply of 9,400,000 would be more than enough, but other estimates are much higher.

"Wheat falls back with great reluctance from its summer rise of 20 cents, but has declined 13 cents for the week, Western receipts being 8,019,910 bushels, against 3,845,032 for the same week last year. Belief in a crop much smaller than last year's has to resist actual receipts of 45,725,368 bushels in six weeks, against 30,446,005 last year, and Atlantic exports have been only 9,093,424 bushels, flour included, against 13,347,619 last year. The reports of winter wheat from some states are also better. Corn comes forward largely, receipts being more than double last year's, and nearly a million bushels went abroad. The rapid marketing of supplies of wheat from Russia and Argentina, and the larger exports of corn from this country, both tend to lessen the future demand for American wheat.

"Failures for the week have been 280 in the United States, against 261 last year, and 49 in Canada, against 42 last year."

Sultan Menaced on All Sides.

Constantinople, Nov. 9.—The situation here is critical, and war either from the outside or internal, or both, would not be a surprise to any of the well-informed of the court circle. The ambassadors of the powers do not regard the new Turkish ministry with favor. It is not expected to last long and it is not thought that it will be able to do anything practical toward clearing the political atmosphere. The sultan had to do something, so he changed his grand vizier and turned over his cabinet. He may have gained some time by so doing, but that seems to be about all.

Sam Houston's Son Expelled.

Dallas, Texas, Nov. 9.—The Dallas artillery company, the most famous military organization in Texas, at a meeting expelled its captain, Andrew J. Houston, a son of Gen. Sam Houston of Texas revolution fame, and struck his name from the roll of membership. Capt. Houston was a strong supporter of Gov. Culberson in his opposition to the Corbett-Fitzsimmons prize fight, and that was the cause of his expulsion.

Session of Christian Workers.

New Haven, Conn., Nov. 9.—The second day's session of the Christian Workers' convention opened yesterday

SAVED FROM THE LAKE.

Crew of the Foundered Steamer Missoula Arrive at Sault Ste. Marie.

Sault Ste. Marie, Mich., Nov. 9.—The long overdue steamer Missoula foundered on Lake Superior last Saturday night, after drifting about in a disabled condition for two days. The crew took to the lifeboats and saved themselves, finally landing on the north shore of the lake. Captain William Williams and four men reached here late last night in a small sailboat. The tug Booth left here this morning to bring the rest of the crew to this port. Following is a list of those who were on board the vessel, as far as can be learned: Captain William A. Williams, master, Cleveland; First Mate Joseph Gorman, residence unknown; Engineer Peter Lamar, residence unknown; Samuel Richmond, passenger, Port Arthur, Ont.; John Dane, watchman; Ling Cutberg, wheelman, Ashtabula; William Kutz, wheelman, Ashtabula; — Lamar, fireman; Thomas Brooks, steward, Cleveland; William Nesbit, lookout, Sarnia.

At 9 o'clock Saturday night all hands took to the boats. All night long the shipwrecked men drifted on Lake Superior in the freezing cold, and it was not until Sunday afternoon that they reached the shore. It is stated by the men that the Missoula had sixteen of a crew and one passenger, and that no one suffered severely from the exposure in the drifting wreck or in the open boats. The steamer went down soon after she was abandoned, and the wreckage reported at Michipicoten island undoubtedly came from her.

BELONGS TO CANADA.

Alaskan Boundary Dispute Becomes More Complicated.

Washington, Nov. 9.—The state department will today receive the information which it has been anxiously awaiting with regard to the precise point at which the 141st meridian, the boundary line between Alaska and British Columbia, crosses the Yukon river and the Forty Mile creek mining country. Gen. Duffield, chief of the coast and geodetic survey, will report the boundary line established by the Canadian surveyor, with Ogilvie, encroaches too far on United States territory by only 22½ feet at his monument on the creek, and by only 20 feet at his mark on the Yukon river. This upsets the theory which has hitherto been advanced by officials of the coast and geodetic survey that the mouth of Forty Mile creek was in Alaska. It renders doubly necessary the final determination of the location of the 141st meridian throughout its entire extent, and the sending of American law officers into the country early in the spring. Nine-tenths of the miners who will seek to reach the upper waters of Forty Mile creek will have to pass through Canadian territory, and, unless the whole line is determined, brawls and bloodshed will inevitably ensue.

Incendiaries Burn an Orphan's Home.

Cleveland, Ohio, Nov. 9.—The Speed Home for Friendless Children on East Madison avenue, near Lexington, was destroyed by an incendiary fire yesterday. The inmates all escaped. Since last Saturday eight attempts have been made to burn the building. The police have been at work on the case night and day, but failed to find the slightest clue to the incendiary. The twenty-seven girl inmates were rescued without injury and two of them were suspected of being incendiaries. On being closely questioned the police do not think the girls at the bottom of the affair. Beyond this there is absolutely no clue to the mystery.

Camp's Favors Reforms for Cuba.

Havana, Cuba, Nov. 9.—The Spanish government is endeavoring to ascertain if the insurgent leaders will accept modified home rule as the price of laying down their arms. Cubans generally believe no such proposition will be entertained. Gen. Campos came to Cuba under a misapprehension. He had been led to suppose that the rebellion would not extend beyond Santiago Province. Instead, the veteran soldier has been confronted by large armed bands not only in Puerto Principe, but in the rich central Province of Santa Clara. He sees that reforms in economic conditions are absolutely necessary if commerce is to prosper.

Lives Lost in a Collision at Sea.

Norfolk, Va., Nov. 9.—During a dense fog off Sewell's point in Chesapeake Bay, the Norfolk and Washington line steamer Newport News last evening ran down and sunk the tug Katie, belonging to Capt. John Twohy of this city. The cook and fireman of the tug were drowned, but the remainder of the crew were rescued by the steamer, which proceeded to Washington.

Cordage Trust Reorganized.

Elizabeth, N. J., Nov. 9.—The Standard Rope and Twine Company filed articles of incorporation in the Union county clerk's office yesterday. It is a reorganization of the United States Cordage company, and will control all its interests. The capital is given as \$12,000,000.

Tried to Bribe a Juror.

Carrollton, Mo., Nov. 9.—The jury in the case of J. S. Williams, charged with trying to bribe Charles Dickinson, one of the talemans at the first trial of the Taylor murder case, returned a verdict of guilty, and assessed the punishment at a fine of \$500.

BISHOP AND CLERGY DEBATE CHURCH AID

PROCEEDINGS OF THE METHODIST MEETING AT CHICAGO.

Discussion Over the Uses to Which the General Fund Should Be Put—Rule Forbidding the Granting of More Than \$10,000 Set Aside—Limitation May Be Wiped Out.

Chicago, Nov. 9.—Bishop Merrill of Chicago presided at yesterday's session of the bishops and clergymen of the Methodist church, who form the general committee on church extension. Dr. McConnell read the list of the conferences, with the amounts that each conference is authorized to receive from the board of church extension and the amount asked from it for the work of the board. The richer conferences are expected to follow the rule that it is more blessed to give than to receive, while the poorer conferences by casting a little bread upon the waters receive it back many fold. Before any action could be taken on this report a lively and prolonged discussion was provoked over another issue. On motion of Dr. Kynett \$50,000 had been set aside by the committee as a contingent fund to pay interest on loans and on bonds on which churches to which the loans had been made had defaulted payment. As the money to make the loans had been borrowed in the first place, the committee thought it necessary to take the money from the conference collections to pay this interest.

Dr. T. B. Neely of Philadelphia took the floor to enter a vigorous protest against such use of the general fund, declaring that it would be illegal. The loan fund, he insisted, should take care of itself. The general committee had no right to set apart \$50,000 from money to which the conferences were entitled for church extension to pay old debts. His proposition to reconsider the vote of the previous day was overwhelmingly defeated, however, and the consideration of the conference appropriations was resumed.

The rules of the board of church extension forbid it from granting aid to churches costing over \$10,000. Permission from the general committee is necessary to the granting of aid in such cases, but the general committee seemed ready to make the rule one more honored in the breach than in the observance. In nearly all cases referred to the committee it recommended wiping out the limitation.

Dr. Kynett read the proposed report which will be made to the general conference of the church, which will be held in May, 1896, at Cleveland, O. The first business of the meeting this morning is the consideration of this report.

Indiana Y. M. C. A. Convention.

Terre Haute, Ind., Nov. 9.—At the Y. M. C. A. convention yesterday the nominating committee reported the name of W. S. Roney for president. He was elected vice president, but consented to take the presidency. He is auditor of the Vandavia road. W. J. Lewis of Evansville was elected vice president. Secretary Stacey said there were twenty cities and towns of between 5,000 and 10,000 people which are untouched by the Y. M. C. A. The financial problem is the great one in these towns.

Poisoned at a Wedding.

Ottawa, Ill., Nov. 9.—About forty persons were poisoned at a wedding in Grand Ridge Thursday night and only the prompt action of the village physician saved from death those seriously affected. Soon after partaking of supper the guests became ill, and the greatest excitement prevailed. It is thought that the poison, through some chemical action, was formed in the pressed chicken, which had been prepared several days in advance of the wedding. All those poisoned are now out of danger.

High Position for a Colored Man.

Albany, N. Y., Nov. 9.—James C. Matthews, colored, recorder of deeds at Washington in President Cleveland's first administration, has been elected judge of the recorder's court in this city, which office carries with it powers of Supreme Court judge. His majority is over two thousand. He was nominated and elected on the regular Democratic ticket. It is the highest judicial office ever held by a man of his race in this country.

To Open Indian Lands for Settlers.

Washington, Nov. 9.—Secretary Smith yesterday sent to the president a draft of the proclamation opening the Nez Perces ceded lands to settlement. He suggests that the opening of the lands be fixed ten days later than the time at which he appends his signature. This will give time for the proclamation to reach the land office before the lands are open to settlement.

Cherokees in a Factional Fight.

Tahlequah, I. T., Nov. 9.—Much excitement and intense feeling prevail between political factions in the Cherokee Nation, and bloodshed is likely to result. The conditions are similar to those of eight years ago, when many men were killed. The national party is contesting the election of Sam Mayes as chief on the Downing ticket, and the Indians are collecting in the capital armed and determined to aid their friends.

NO STRIKE ORDERED BY A. R. U. OFFICERS

DEBS TALKS OF THE GREAT NORTHERN SITUATION.

In a Letter Written to a Milwaukee Friend He Says That No Strike Exists—Terre Haute Labor Unions Plan a Reception in His Honor—General Labor News.

Milwaukee, Wis., Nov. 9.—According to Eugene V. Debs, president of the American Railway union, who is now confined in the Woodstock jail, no strike has been declared on the Great Northern system and none is likely to be declared. This statement is contained in a personal letter from Debs, written in Woodstock jail Thursday night, and received by a prominent member of the order in this city yesterday. Debs writes that the Milwaukee members may feel no concern as to the trouble on the Great Northern system. "Brother Keliher," he writes, "advises me that no strike has been declared and that none is likely to be declared. There has been local trouble at three or four points, but nothing of a general character in which the American Railway union is involved. There could be no strike unless authorized by the men themselves, and this has not been done."

OPERATORS WIN ARBITRATION.

Pennsylvania Coal Miners Work for 64 Cents a Ton.

Columbus, O., Nov. 9.—Judge Little of Xenia, who was chosen to arbitrate the basis of wages for mining in Ohio, has found in favor of the operators. The mining scale in Ohio is determined by the prevailing rate in Western Pennsylvania. The miners claimed 69 cents was the prevailing rate, and the operators claimed it was 64 cents. It was shown that seven-tenths of the coal produced in Western Pennsylvania was mined at 64 cents, and Judge Little held that was the prevailing rate. Only the operators having their own stores pay 69 cents in Western Pennsylvania. On the basis of the arbitration the rate in Ohio will be advanced from 51 to 55 cents a ton.

Big Reception to Debs Planned.

Terre Haute, Ind., Nov. 9.—The local trades unions have been informally arranging for a reception of E. V. Debs on his return home, with the intention of making a demonstration that would surprise the people because unannounced. This plan has been dropped in a degree and a meeting of representatives of all trades was held last night, when committees were appointed and money appropriated for a reception on a big scale. Debs is more popular with trades unions here at his home than ever before, and they want to make that fact apparent to the outside world.

Fort Wayne Strikers Still Out.

Fort Wayne, Ind., Nov. 9.—The Wayne knitting mill strikers are still out and trouble is feared. The three conferences held yesterday availed nothing. The hundred striking men are nearly all foreigners from Chemnitz, and as the mill owners refuse to grant any concessions, the men are determined to tie the mills up. Some of the strikers are Socialists.

Engineers to Elect Officers.

Chicago, Nov. 9.—The advisory board of the Brotherhood of Locomotive Engineers of the Rock Island system continued in session yesterday. It is expected that their meeting will be finished by noon today, and before adjournment the officers for the coming two years will be elected.

WOULD DISMEMBER TURKEY.

Lord Salisbury Makes Such a Proposition to the Powers.

London, Nov. 9.—A dispatch to the Chronicle from Rome says that the Corriere del Mattino, of Naples, has advised to the effect that the marquis of Salisbury has confidentially proposed to the powers the dismemberment of Turkey. A dispatch to the Times from Rome, referring to the gravity of the Turkish affairs, says that Italy is in perfect accord with England, and that the Italian fleet is ready to co-operate with the English fleet wherever the interest of European peace may need it.

Arkansas' Governor Commended.

Oberlin, Ohio, Nov. 9.—The annual convention of the non-partisan W. C. T. U. ended yesterday. National organizers were not selected, the matter being left in the hands of the general officers. Resolutions were adopted condemning prize fighting, and commending the governor of Arkansas for preventing the Corbett-Fitzsimmons fight. Notice was given of an amendment to the constitution to be presented at the next annual meeting, making presidents of state unions delegates-at-large and all officers and the executive committee voting delegates.

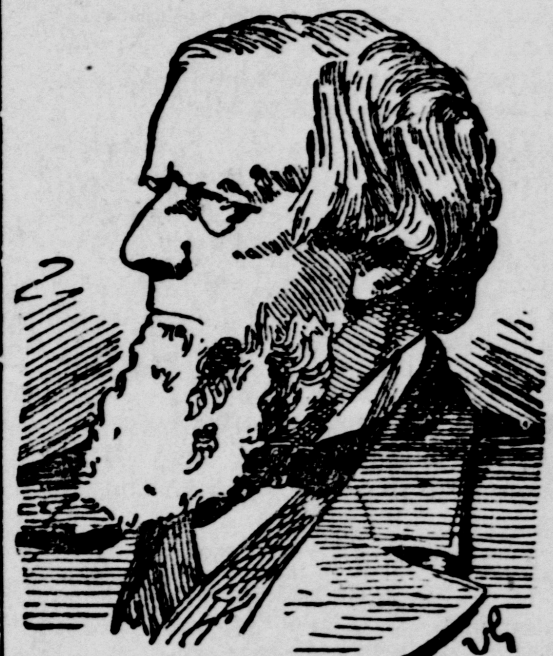

Ballots Guarded by Deputies.

Denver, Colo., Nov. 9.—The situation politically remains unchanged. The returns from the county elections remain locked in the county clerk's office, while representatives of both the republican and taxpayers' tickets keep constant guard to see that they are not tampered with.

ALLEN G. THURMAN DYING.

The Death of the "Old Roman" a Question of a Few Hours.

Columbus, Ohio, Nov. 9.—Allen G. Thurman is near death. A week ago he was reclining on a sofa in the library, where he spends the most of his time. He fell asleep, and, turning rolled to the floor. Mr. Thurman got up with much difficulty and was put into bed and a physician was called. No bones were broken, but one hip was badly bruised, and, owing to Mr. Thur-

man's advanced age, he has not been able to rally from the shock. Mr. Thurman was not much worse Saturday or Sunday, and Mrs. Loving and Whitaker thought that he would soon recover much of his vigor. On Wednesday of this week he was much improved. Mr. Thurman took a relapse Thursday and began rapidly to decline. The bruise on the hip is only an incident, for the "Old Roman" is simply dying of old age, and his death is only a question of a few hours. Judge Thurman will be 82 years of age if he lives until Nov. 13. He has not been out of his house for several months, though he expressed a wish to be heard from his porch during the last campaign. This wish it was not thought prudent to gratify, because of Mr. Thurman's advanced age, and the meeting was not held. The aged ex-senator has hardly left his library since his beloved "Mary" died four years ago. These two had been companions for fifty years, and he hardly survived the shock of her death. His books have been his almost constant companions, and his friends have been expecting every day to hear that the battle of life life was ended.

THIRTY-SEVEN WERE KILLED.

The Last Body Taken from the Wreck of the Detroit Journal Building.

Detroit, Mich., Nov. 9.—The dead body of James B. Thomas, a machinist, was taken from the ruins of the Journal building last evening. This is the thirty-seventh body recovered, and according to the list of missing, was the last body left in the wreck. Altogether, four bodies were recovered yesterday. They are those of:

LIZZIE WEIDBUSCH, employed in Hiller's bindery.

CHARLES LIND, aged twenty, also an employee of the bindery.

ANNA UHLIK, press woman in Hiller's bindery.

Thomas M. Thompson, engineer of the building, was arrested yesterday and is at Grace hospital, under custody.

Decides Against the Settlers.

Ashland, Wis., Nov. 9.—Secretary Hoke Smith has transmitted to the local land office his final decision in the case of C. A. Anderson et al. vs. The Keystone Lumber Company. The case is upon the right of the Keystone Lumber Company to purchase under the innocent purchaser act of March, 3, 1887, certain lands that they claimed through purchase from the Central Railroad Company. The lands in dispute are situated in towns 45 and 47, range 4, west, and there are a large number of settlers contesting the Keystone Company in this case. Secretary Smith decides in favor of the Keystone Company, and orders all the applications of the settlers rejected.

Gives His Farm for Gold Bricks.

Knoxville, Tenn., Nov. 9.—Farmer Henry Davenport's 500 acres of land were sold here because he mortgaged it to get money with which to buy gold bricks.

ANSWERED THE CALL OF DEATH

Funeral of Richard Connors.

The funeral of Richard Connors was held from St. Joseph's church at Edgerton yesterday morning at 10:30 o'clock. Rev. Father Herland officiating. The pall bearers were Edward Fanning, Will Connors, Patrick Hayes, Fred Connors, Thomas Connors and Peter Bernard.

MANY NEW HOUSES HAVE BEEN BUILT

PARTIAL LIST OF JANESVILLE BUILDING IMPROVEMENTS.

Only Those Now In The Course of Construction or Those Very Recently Finished Included—Fine Lighting Plant—New Foundry—New Business Block—The New Residences.

WHAT promises to be one of the finest electric light plants in the state is now in course of erection at 121 North Main street, by the Bower City Light & Power Company. Workmen have been engaged in putting the two boilers in position which will have a capacity of 300 horse power. Besides steam power they expect to use water, which will give them 35 horse power in addition, although the water will be used only as a supplemental power. W. F. Hayes has ordered four dynamos with a capacity of 300 lights. The building has been occupied by the M. G. Taylor & Morris Machine works but they have moved out, and the whole structure has been remodeled. The property is owned by the Lappin estate from whom a five year lease with the privilege of tan, has been secured. Manager Hayes figures the entire outlay at \$10,000.

A FIRST class foundry and machine shop is now in course of erection on North Main street near Fourth avenue. For some time M. D. Taylor and Robert H. Morris who have been conducting the machine works and foundry at 121 North Main street have needed larger quarters and with this object in view they obtained the building formerly occupied by the Janesville Hay Tool Company. A two story addition has been built and the old building remodeled at a cost of \$1,000.

A BUSINESS block is the latest addition to the First ward, it is being built at the corner of Washington and Pearl street. For some time past G. H. Richter has owned the land and has been figuring on the cost of such a structure, his object being to start a grocery store. The building is a brick structure two stories high, the upper story being finished off into living rooms with projecting bay windows. The entire cost is figured at \$2,200.

A RESIDENCE that Janesville may well feel proud of has just been completed at the corner of South Third and Division streets by Frank H. Baack. The house is built in the latest style of architecture and every effort has been made by both the architect and the builder to make it first class in every respect. The first story is finished with Waukesha stone which gives it a massive appearance. The cost is estimated at \$7,000.

BUSINESS in the grocery line must be good in the First ward. Mrs. Manda E. Hollis, who conducts the store at the corner of Mineral Point avenue and Chatham street, is building a one story addition to her store.

The handsome Kent block which is in course of erection at the corner of Court and South Main streets, will be finished according to the original plans as drawn by Architect Kemp. The estimated cost is about \$12,000.

SINCE the shutting of the water power at Monterey, both the cotton and woolen mills have taken advantage to make numerous improvements and about now everything is pronounced in running order.

WORK on the Richardson & Rexford flats at the corner of Court and Division streets has been finished. The property includes four separate flats and it is understood that they have all been spoken for.

PLANS and specifications have been made out and are now in the hands of David Jeffris for a modern residence to be erected on Terrace street. Work has begun and it is the intention to complete it this fall.

The Congregational parsonage is about completed, and plans as drawn by Architect Kemp call for a \$3,000 structure. It is a handsome building and one that the congregation may well feel proud of.

Two electric light power houses have been erected by Captain Pliny Norcross. They are situated in the rear of his River street block, and are models in themselves, being built of brick.

A COZY little cottage is being completed by Patrick Steed, the estimated cost being \$500. It is situated near Western avenue near the Woolen mill and has been rented to J. Kinney.

EXCAVATION for a new house has been made on Prospect Avenue near Fifth Avenue, to be erected by J. H.

RAINS WILL MAKE LEAF TRADE HUM

MARKET WILL SOON BEGIN TO OPEN UP.

The Raisers Can Now Get the Hanging Crop Down and the Buyers Will Then Begin to Ride—Five Dealers Keep Janesville's Market Lively—Local Weed Gossip.

The rain has caused the farmer and the leaf buyer to rejoice, for the drizzling mist, The Leaf says, bids fair to bring the hanging tobacco in case, which event will cause much riding from this market. A are anxious to know the real condition of the '95 crop, the extremely dry weather for the past six weeks entirely precluding any examination. The best crops will be located, and, in the event of early buying, will be promptly picked up.

The market still displays a creditable degree of activity, caused by the efforts of five leading dealers, L. B. Carle, S. B. Hedges, F. S. Baines, George H. Rumrill and J. M. Thayer. These men are actively engaged in picking up choice lots of '93 and '94. Several others are riding, but are not making any purchases. The old tobacco in the hands of the farmers is weekly becoming more scarce, and it requires more riding to get much tobacco. Then again some of the farmers are holding for better prices.

Among the transactions reported are 36 cases '93 and '94 bought and \$2 case, '91, and '92 sold by S. B. Hedges; 100 cases '93 bought and sold by F. S. Baines; 40 cases '93 sold by Soverhill & Porter; Geo. H. Rumrill sold 62 cases '93. L. B. Carle and Joseph Grundy have also made purchases.

Local Leaf Gossip.

G. A. GOFF, representing John Brand & Co., Elmira, New York, arrived in Evansville last week and is looking after the tobacco interests of his firm. He shipped 250 cases eastward last week.

SANFORD SOVERHILL is tramping the woods in the northern part of the state in quest of deer, which are said to be plenty in some parts of the state, and are annoying the farmers considerably, eating much of their produce.

F. A. BAINES shipped a car of "shorts" to Evansville today.

J. L. and M. F. Greene have shipped a car of '92 from Edgerton.

GEORGE H. RUMRILL shipped tobacco from Evansville today.

S. B. HEDGES shipped four cars of tobacco this week.

J. B. DEARBORN has shipped a car of '93 eastward.

SOME SOCIAL NOTES IN A LINE

A CHARMING social and program were given at the Baptist church parlors last evening under the auspices of the Y. P. S. C. E. of that congregation. Mrs. J. B. Day, Janesville's talented elocutionist, read three of Eugene Field's poems, "Little Boy Blue," "The Dutch Lullaby" and "The Wind Song" in her usual pleasing manner. There were also several musical numbers on the program, and at the conclusion refreshments were served.

A VERY pleasant social was given at the close of the dancing school last evening, at which Mr. and Mrs. Williams were the host and hostess.

ABOUT thirty friends enjoyed the bountiful hospitality of Mr. and Mrs. James Gardner, last evening, at their home 13 Milton avenue. Dancing, singing, music and feasting occupied the time until midnight and all who attended say it was a most pleasant occasion.

More 37 1-2 Cent Underwear.

We have been selling to the public fleece-lined underwear worth 50 cents for 37 1/2 cents apiece. Yesterday we bought in Chicago twenty dozen more of the same ware and had it shipped by express for today's trade. We know we can close them out quickly, as 37 1/2 cents a garment is exceedingly cheap. Rosenfeld on the bridge.

Black Ulsters.

We can sell the very best Irish frieze ulster that is offered for \$10. Everybody has them to show you, but ours has good qualities about it that no other coat has. It is lined with a cassimere lining that is heavy enough for a coat itself. It is made by Adler Bros. and that is sufficient to make it good. Look at it before you buy. F. H. Baack.

New Jackets.

We place on sale this morning one hundred new jackets. All are of the very latest styles and materials. We were fortunate in securing this lot very much under value, and will make prices on them accordingly. If in want of a jacket don't miss this sale. Bort, Bailey & Co.

TWO BOX CARS FOR CABOOSSES:

Business On the C. & N. W. Is Heavy Although Grain Doesn't Move.

The freight trains on the C. & N. W. has grown so heavy that the supply of way cars is exhausted. An old passenger coach has been doing service for some time and this week two boxes were put on the lieu of cabooses on trains running out of Janesville.

Coal and lumber furnish most of the freight thus far. The coal is shipped from Sheboygan and lumber from Ashland division points.

Very little grain is moving. Farmers won't sell as long as oats are seventeen cents and corn twenty cents.

THE SNOW STORM WAS GENERAL

Railroad Men Say "The Beautiful" Covered the Whole State.

Freight trains that arrived from the north last night showed that the snow storm was general throughout Northern Wisconsin, for the tops of the cars were white. The railroad men said "the beautiful" had fallen in several places to a depth of six inches while trainmen who arrived early this morning report a regular blizzard near Marinette.

THE MAYOR'S ADVICE.

Mayor Wing of Montpelier, Vt.,
Heartily Endorses Dr. Greene's
Nervura

Mayor Wing Used Dr. Greene's Nervura in His Family With Marked and Decided Benefit. Makes All strong And Well.

HON. GEORGE W. WING, MAYOR OF MONTPELIER, VT.

Hon. Geo. W. Wing, Mayor of the capital city of Vermont, is a man of high eminence. A distinguished lawyer, he has served his state in many high offices, having been Deputy Secretary of state, occupied a position in the state treasury, was postmaster at Montpelier and was elected to the state legislature in 1892. Owing to his great popularity, he had the distinguished honor to be elected Mayor of Montpelier, a position he now fills with illustrious success.

When such a man, occupying so high a position in community, endorses the great curative powers and recommends the sick and suffering to use Dr. Greene's Nervura blood and nerve remedy, no one will hesitate for a moment to use this grand medical discovery, the great restorer of health and strength.

Mayor Wing writes: "I have used Dr. Greene's Nervura blood and nerve remedy in my family, with marked and decided benefit."

"Especially has it been useful in insomnia, arising from indigestion and its attendant evils. I think well of Dr. Greene's Nervura blood and nerve remedy and freely grant permission to use this letter in advertising it."

You who suffer from nervousness, nervous weakness, the exhaustion of nervous debility, the tired condition attendant upon poor blood and low vitality, the nerve-wearing pain of neuralgia or rheumatism, who pass sleepless or restless nights and wake mornings tired and unrefreshed, with dull feeling head, bad taste in the mouth, and go to our occupation languid, nerveless, dispirited, without your old-time energy and ambition, do not lose a moment in securing this grand strengthener, Dr. Greene's Nervura blood and nerve remedy. It is purely vegetable and harmless, and it will surely make you well.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone, at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

Cotton States and International Exposition at Atlanta, Ga.

For the above event the Chicago, Milwaukee & St. Paul Railway will sell excursion tickets from Sept 15 to Dec. 31, 1895, good for return until and including Jan. 7, 1896. The rate of round trip will be 75 per cent. of double lowest first class fare.

If the Baby is Cutting Teeth! Be sure and use that old and well-tried remedy Mrs. Winslow's Soothing Syrup for children. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

It is a truth in medicine that the smallest dose that performs a cure is the best. De Witt's Little Early Risers are the smallest pills, will perform a cure, and are the best. C. D. Stevens.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better results; better try it. C. D. Stevens.

A. G. Bartley of Magic, Pa., writes: "I feel it a duty of mine to inform you and the public that DeWitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on his leg." C. D. Stevens.

Reduced Rates to Atlanta. On account of the Cotton States and International Exposition at Atlanta, Ga., the Northwestern line is now selling excursion tickets at reduced rates. For tickets and full information apply to agents, Chicago & North-western R'y.

There are many good reasons why you should use One Minute Cough Cure. There are no reasons why you should not, if in need of help. The only harmless remedy that produces immediate results. C. D. Stevens.

THE LOCAL OVERFLOW

PASS RESOLUTIONS OF RESPECT.

Action Taken Concerning The Death of Mrs. Alice Ashley.

America Lodge No. 36, D. of R., at a regular meeting adopted the following resolution

Less than three years ago there came seeking admission into our sisterhood one whose tender sympathizing heart was ever open to the appeals of suffering humanity, that she might in a more perfect manner broaden her field of usefulness; Sister Alice Ashley. Kind and genial in disposition was she. Who among us has not been made better and happier by an intimate association with her in our lodge and social meetings? Quiet and unassuming in manner she soon won a warm place in each heart, and there exerted an influence for good that we trust may never cease to be felt, but abide with us, making us more charitable, more forgiving, more united. The Father of all has called her from our sight, to rest from her labors and receive the reward of those who are faithful to their mission. We shall miss this faithful sister this loving friend, who has given us in her daily life so worthy an example, who has co-operated with us so well, who has served us in the noblest capacity, and our hearts go out in tenderest sympathy to our brother, who was her companion, to her precious children and to all, who by this dispensation of God's providence have been called to mourn the loss of one so dear. In outward token of this sympathy be it

Resolved: That this memorial be published in our local papers, and "The Widows' and Orphans' Friend," and recorded with the minutes of our lodge; that our charter and past noble grand's chair be draped in mourning for thirty days.

For tickets and full information apply to Agents Chicago & North-Western R'y.

Changes of Climate

Kill more people than is generally known. Particularly is this the case in instances where the constitution is delicate, and among our immigrant population seeking new homes in those portions of the West where malarial and typhoid fevers prevail at certain seasons of the year. The best preventive for a change of climate, or of diet and water which that change necessitates, is Hostetter's Stomach Bitters, which not only fortifies the system against malaria, a variable temperature, and the debilitating effects of tropical heat, but is also the leading remedy for constipation, dyspepsia, liver complaint, bodily troubles specially apt to attack emigrants and visitors to regions near the equator, marines and tourists. Whether used as a safeguard by sea voyagers, travelers by land, miners, or of agriculturists in newly populated districts, this line specific has elicited the most favorable testimony.

NEED A BETTER LAW.

There will be tariff legislation by the next republican congress—there must be legislation. And when the subject is brought up let us bear in mind that England has sold to the United States in the last nine months nearly \$20,000,000 more in woolen and worsted goods than in the same months of last year; and that the same is true, relatively of various other commodities.

This would not be so bad if there had been any reciprocation on England's part; but instead of buying more from us than heretofore, she has bought considerably less.

She has reduced her orders for our wheat, flour, meats, etc., and has purchased more of such products from India, Russia, Roumania and the Argentine Republic.

Our new tariff law which was to "capture the markets of the world" for us has utterly failed to accomplish that result. On the contrary, under its operation, we have lost instead of gaining foreign trade, and are buying more abroad than we sell.

We have had quite enough of such a tariff law. The sooner it is amended the better.

EMPTY POCKET BOOKS VOTED.

It was for bread and butter that people voted this year. They had their minds on business, not politics, when they marched to the polls and put the country safely out of democratic control. The recovery from the dreadful depression which weighed upon the trade and industries of the country began when, a year ago, they met the threat of still more radical reforms, by sending the reformers about their business and filling their seats in the house with republicans. But the recovery will be far swifter now that they they have made the other branch of congress securely republican and given unmistakable assurance to the country that next year they will elect a republican president and that meanwhile until all machinery of government shall be under republican control, the country is safe from any further vexation by that most gigantic of modern mischief makers, the democratic party.

It doesn't take much of a political economist to see why the democratic tariff law is a failure. It falls short of supplying sufficient revenue by an average of over \$4,500,000 per month. As a vote getter it misses by even a larger figure.

Secretary Olney's note to the British government regarding Venezuela has evoked no answer, although several months have passed. Lord Salisbury seems to understand the sort of an administration he is dealing with.

The critics are complaining that Sherman's book gives too much about Sherman while the politicians think it gives too much about them. One thing is certain whatever it says is pretty apt to be true.

David B. Hill will be turned out of the senate by a legislature in 1897, and will go back to ward politics, where all the prominence he ever had was won.

Well meaning people who were too good to be practical let Tammany win in New York. Rogues in every city count such folk their best friends.

Paderewski has cut his hair, but his manager hasn't cut any of his old time habits of working newspapers for free advertising.

Football isn't in it this year as a rival of Judge Lynch, at least not yet. The Thanksgiving day games may change the status.

Senator Brice admits that the hired man in politics is a barren mockery since Australian ballots were introduced.

Wonder what relation exists, in Mr. Cleveland's mind, between the election returns and the third-term idea.

The republican party is pretty well thank you, and eager for the opening of next year's fray.

Don Dickinson may yet learn to take a few reefs in his tongue as well as his whiskers.

THE SHIRT MY FATHER WORE.

[From the Chronicle.]

My father bought an undershirt Of bright and flaming red— "All-wool," I'm ready to assert, "Fleece dyed," the merchant said. "Your size is thirty-eight, I think, And forty you should get. Since all-wool goods are bound to shrink A trifle when they're wet."

That shirt two weeks my father wore— Two washings, that was all From forty down to thirty-four It shrank like lead in fall.

I won't let then a day or two But when 'twas washed again My wife said: "Now 'twill only do For little brother Ben."

A fortnight Ben squeezed into it At last he said it hurt— We put it on our babe—the fit Was good as any shirt.

We never will wash it more while yet We see its flickering light, For if again that shirt is wet 'Twill vanish from our sight.

We are agents for the JAROS. Cannot shrink. Fits like a glove. You can get along without an overcoat. You can keep well without Jaros Hygienic Underwear but it isn't so easy.

TWO MEET DEATH BENEATH A CAR

Mr. and Mrs. Edward Lay Instantly Killed Last Night.

HORSES BECAME UNMANAGEABLE ON MADISON AVENUE.

Team Evidently Jumped In Front of the Car While Frightened and The Occupants of the Wagon Were Thrown Under the Wheels—Both Died Instantly—Eight Children Are Made Orphans—The Inquest Was Not Finished.

From under the heavy framework of street car No. 4, two mangled human bodies were taken last night. The dead:

LAY, EDWARD, Town of Center, aged about forty-six years, hole crushed in temple, and minor injuries. Killed instantly.

LAY, MRS. EDWARD, neck, right arm, leg, collar bone and three ribs broken, skull crushed in and shoulder dislocated. Killed instantly.

The injured:
LYNCH, JOHN, motorman, residence 159 South High street; left knee cap dislocated, right arm bruised and cut, chest contused and minor injuries. Not serious.

Eight children are orphaned by the accident, which was the result, supposedly, of the wild plunge of a spirited team of horses. A coroner's jury was at once summoned and Justice Richardson conducted the inquest this morning, the jurors being John C. Spencer, Fred L. Clemons, Charles Jenkins, Fred Crouse, W. T. Vankirk and J. L. Bear.

The jury did not complete their investigation today, but adjourned until next Wednesday morning.

How The Accident Occurred.

The car and the team plunged together with terrific force. The pole of the platform wagon was forced through the sheet iron dashboard of car, and there broken off. The horse on the right hand side was tossed upon the platform of the car as easily as if it was a bag of shavings instead of an animal weighing over a thousand pounds, and there it lay, its leg having been broken by the shock. The horse was thrown against Lynch, knocking him through the car door, and buckling the supports to the car roof as if they had been of wire instead of one inch iron bars; breaking the brake chains; extinguishing the head light and doing other damage.

Mr. and Mrs. Lay came to Janesville to do some shopping yesterday afternoon. Their last stopping place was at Dunn Brothers store where they made some purchases and then started for home. The team which is said to have been an exceptionally spirited one, became frightened at something and started to run. Mr. Lay apparently could not control them, it was said they were running at a rapid rate. Street car No. 4 in charge of Motorman Lynch was returning from its cemetery trip. When it was but twenty feet distant Lynch saw the team come plunging toward him. He set the brake but almost before he could twist it up tight the crash came.

Thrown Under the Wheels.

Thus it will be seen, the collision was rather a glancing one, and Mr. and Mrs. Lay were supposedly hurled from the seat by the shock. The wagon was pushed to one side and the uninjured horse escaped in the darkness. Mr. and Mrs. Lay, as far as anybody can tell, fell on the ground ahead of the car, and an instant later, the cruel wheels were grinding their life out. After running some thirty feet beyond the scene of the accident, the car came to a standstill. Dean Peterson, one of The Gazette's carrier boys was in the car. He jumped out and screamed for help. Neighbors heard the call, and hastened out. H. B. Sexton, Walter Rice and others responded, and by the dim lantern light, the bodies of the ill fated couple were found, wedged under the blood bespattered timbers of the car in such a way that they could not be removed. A telephone call was sent for the fire patrol, and another car was sent to the scene with jack screws. Then willing hands set to work and the car was raised from the rails.

Both People Were Dead.
At first it was thought that Mr. Lay was alive, but E. B. Helmstreet felt his pulse and declared that life was extinct. The dead man lay under the front end of the car with his feet inside the pointed guard beams and his head resting on a timber under the car. His body made a pitiful looking pile, as it was laid on the fire police stretcher and llood and mud covered his clothing.

In the meantime, another party had been engaged in extricating the remains of Mrs. Lay. She was found underneath the massive motor. Beside the remains of her husband the mangled remains were placed, and the patrol wagon took them to Daniel Ryan's undertaking rooms. Here Dr. Loomis made an examination. He found that no bones had been broken in Mr. Lay's body, but a hole had been crushed in his head near the temple on the right side, the wound being of such a nature as to cause, in all probability, instant death.

Mrs. Lay's body had been fearfully mangled. Her neck had been broken as had also her right arm, one leg, the collar bone, and three ribs, while her

shoulder had been dislocated and the body bruised and cut in a number of places.

Eight Children Left Orphans

Mr. and Mrs. Lay had a family of eight children five girls and three boys. The eldest one a daughter named Norah is eighteen years of age while the youngest is a babe of but twenty months. The terrible news was broken to them by E. J. McQue, John Connors and Ed Donahue at the packages in the wagon—one of them being composed of school books and candy for the children were delivered to the afflicted ones. Beside the left-hand several relatives were chilt. Mr. Lay leaves two brothers, James Lay and John Lay, of the town of Porter, and a sister, Miss Charles Cassidy, 103 Lincoln street, this city. Mrs. Lay's maiden name was Quinn, her parents living near Leyden in the town of Porter. She was a sister of Mrs. Michael Hayes and Mrs. John Connors, both of this city and was about thirty-six years of age.

All acquaintances speak very highly of Mr. and Mrs. Lay, they being industrious people and good citizens.

Motorman Lynch's Injuries.

Motorman Lynch can congratulate himself that he escaped with his life. It was said last night that he had his arm broken but this proved to be untrue, although his knee cap was dislocated and he had received painful injuries about one arm and his chest.

The condition of the car showed that he had made all possible attempts to stop it. The brake chain being broken when the dashboard was forced back showed conclusively that the brake was set, while the fact that the switch to the head light was turned on proved that the light was shining. The wires were broken when the hood was pulled down by the crash. After the car had stopped, Motorman Lynch tied down the trolley. He was taken to his home on High street, where Dr. Fox attended his injuries which were not of a serious nature.

Mr. Lay was an old resident of Rock county, where he has lived since he was a boy.

Officer Hogan shot the injured horse to end its suffering.

DEVELOPMENTS AT THE INQUEST.

Minor Details of the Story Are Somewhat Changed.

Some of the minor details of the story as it had been told last night were changed when the testimony of the witnesses etc. was taken, at the inquest before Justice Richardson this morning. The jury viewed the remains last night and this morning viewed the scene of the accident.

Dean Peterson, fourteen years old, was the first witness sworn. He carries The Gazette and was riding in on the car. He was reading in the car and the first he knew of any trouble was when the car stopped with a crash of broken glass. He heard nobody call neither the motorman nor Lay. Witness jumped out of the car as soon as possible, yelled "Help" and walked around to where Jack Lynch, the motorman stood. They couldn't see that anybody had been hurt, but two or three others came out with lanterns and found the bodies under the car. The wheels had not passed over them. Witness did not think the car was running much faster than usual when the accident happened. When he got on the motorman said:

"I've got just five minutes to get down town in."

The car generally left the cemetery on that trip at 6 o'clock. Last night it was five minutes later. Witness had been riding to the cemetery every night for a year.

Myer Tells His Story

Andrew Myer, who lives a mile past the cemetery, was the first man at the scene of the accident. He was passed by a team going at a good speed and asked for a ride. The driver slackened up, but as witness didn't run, he started up again. A moment later he could see one of the horses begin to jump, and the street car bell rang. Then there was a crash and the street car lights went out.

Witness had ridden out with Lay many times during the summer. Lay's team always shied at the street cars and Lay had often said he wanted to get a horse his wife could drive.

Myer said the car started up a little while they were looking for the bodies and Lynch jumped on the platform and stopped it.

W. E. Proudfoot told of going to the scene of the wreck. He found that the headlights were still on showing that the light must have been burning. There was also evidence that the brake had been set. Lynch told witness that he did not see the wagon until it was within twenty feet of him. In answer to a question he said the car wheels were all protected by guards.

Dr. Loomis and several other witnesses were also sworn and at noon the inquest was adjourned until 2 o'clock.

The inquest was adjourned at noon until 2 o'clock this afternoon, and at that time another adjournment was taken until Wednesday morning at 10 o'clock. The jury wishes to hear Motorman Lynch's story and he will be unable to appear before that time.

Funeral Arrangements Made

The two bodies were taken from Ryan's undertaking rooms to the afflicted home in the town of Center this afternoon.

The funeral will be held from St. Patrick's church at 10:30 o'clock Monday morning, the party leaving the residence at 8:30 o'clock. Two sisters of Mrs. Lay, one of them a Sister of Mercy, are expected to arrive here tonight.

Shoes until Tuesday night for \$75 cents a pair after that the stock will be placed up. F. S. Winslow.

CANARY IS FREED BY THE JURYMEN

WAS NOT GUILTY OF THE CHARGE MADE.

The Twelve Men Who Tried Him Decide That He Was Justified In Shooting John H. Sullivan—Verdict Was Reached at 2:20 O'clock This Afternoon.

William Canary walked from the municipal court this afternoon a free man.

A jury had declared him innocent of attempting to kill John H. Sullivan. They reached their verdict at 3:20 o'clock and Canary was at once discharged. The case was given to the jury at 1:50 this afternoon, so it took them a little less than two hours to come to an understanding.

The evidence was all in last night and the arguments were made this morning. District Attorney Jackson opened the argument for the state this morning and was followed by Attorney Franklin for the defense. Attorney Lane also presented Canary's side of the difficulty, after while District Attorney Jackson closed for the state. Judge Phelps then announced that as it was then dinner time he would not deliver his charge to the jury until 1:30 this afternoon.

ALL SOULS, The People's Church

OPEN AND FREE TO ALL.

Sunday, Nov. 10.

Public services at 10:30 a. m. Lecture by the pastor. Subject: "Why I am a Christian and What Sort of a Christian I am."

It is openly asserted by some of the local clergy and laity that "All Souls" is not a Christian minister. We are told that we steal the name "Christian." It may be as well for those who have any doubts on this point to hear the defense of the accused. At all events it there should be no conviction without trial.

Remain to the discussion and exercise the large liberties which "All Souls" extends freely to all.

At the door is a question box. Use it.

WHAT FOLKS SAY.

Do They Know What They Have Kidneys For?

If They Don't, They Know at Least When They Are Sick, and They Know When They Are Cured, What Has Cured Them.

See if The Following Applies to You

Do you know what your kidneys are for? They are for filtering and purifying your blood.

Do you suffer from pains in your back and sides, sleeplessness, nervousness, puffing of your eyelids, swelling of your feet and ankles? If you do, it is because your kidneys are not purifying your blood.

Bad blood is like bad water. It is poisonous.

But it is made in your body every minute. It is made from the waste that goes on in your body.

Whenever you move or think, you wear out some part of the matter which makes up your body or brain. This waste matter is of no further use. It is like kitchen garbage. It must be thrown away.

Your blood puts new matter in its place and carries the waste to your kidneys.

Your kidneys filter it out of your blood and throw it out of your body.

This is what your kidneys are for. This is why Dr. Hobb's Sparagus Kidney Pills will cure Blood Troubles and Kidney Troubles. Because they make the kidneys filter the blood.

Here is a letter from a prominent gentleman of Boston. He says:

Boston, August 9th, '95.

Hobb's Medicine Co.,
Chicago, Ill.

Gentlemen:

It is with great pleasure that I recommend the wonderful medicinal properties of your excellent remedy. I have for years been a great sufferer from acute kidney troubles, and have tried every known medicine without any beneficial results.

Through the advice of a physician I was induced to try Hobb's Sparagus Kidney Pills, and after using the first box I was convinced I had at last found a permanent cure.

I am now perfectly well, and two boxes of Hobb's Sparagus Kidney Pills is what did it. It would be impossible for me to say too much in their praise. Very Truly Yours,

JAMES H. LYNCH,
No. 26 Irving street.

Blood troubles don't mean skin diseases only.

They mean rheumatism, gout, anaemia, chlorosis, pale, bloodless complexion, lack of ambition, headache, dizziness, hysteria, neuralgia, etc.

These diseases are not generally called blood diseases, but they are blood diseases all the same.

They are, because they are caused by a poison in the blood which the kidneys don't properly filter.

The proof of this is that as soon as the kidneys begin to filter the blood, all these diseases disappear.

And the best way to cure the kidneys and make them do their work of filtering the blood is to take Dr. Hobb's Sparagus Kidney Pills.

There is nothing harmful about Dr. Hobb's Sparagus Kidney Pills. Nothing but pure vegetable healing and tonic herbs and roots.

They are recommended by physicians and specialists who have tested them and found out their great curative powers, and thousands of people who have been cured by Dr. Hobb's Sparagus Kidney Pills, after they had given up all hope, will always continue to sing their praises.

Dr. Hobb's Sparagus Kidney Pills are for sale by all druggists, or will be prepaid to any address for 50 cents per box. Valuable pamphlet, "A Filter For Your Blood," free on request. Hobb's Medicine Co., Chicago or San Francisco.

SAY, why don't you try Dawitt's Little Early Risers? These little pills cure headache, indigestion and constipation. They're small out do the work. C. D. Setvens

PARIS IS PREPARED.

If She Is Again Besieged She Does Not Mean to Starve.

Taking into account the remarkable advances that science has made in the way of preserving and compressing food so that it can be stored in an infinitely small space in proportion to its nutriment, it is not likely that any besieged city in the future will undergo the horrors of starvation. Paris has learned a substantial lesson from the experience she had in 1870 and 1871, when the German invaders completely surrounded the city and prevented any food whatsoever from going in.

If, in fact, an attack should come at a moment's notice, the Parisians would now find themselves well supplied and with everything in their warehouses necessary to support life for an indefinite time. The war department has made the accumulation of an enormous stock of provisions its especial hobby. Not only meat, flour, biscuits, preserved vegetables and solid soups are stored in the government magazines, but also milk, "pasteurized," and petroleum, wood, chemicals and coal. Even the horses have been kept in mind, for there are packed away great stocks of compressed fodder and grass preserved by the silo system.

That all these supplies can be kept on hand in the comparatively small space the war department has for the storing of provisions is not so remarkable when it is remembered that 40,000 ra-

It Is the Usual Thing.

The Chairman of the Meeting—Gentlemen, you see only ruin around you. The lurid flames have wiped us out. Our town is gone. It is in ashes. We were not very well insured, but we must try to build up again on what little money we have. Now, the chairman would like to receive suggestions as to the wisest thing to do. What shall be the first step?

Leading Citizen—I move, Mr. Chairman, that we club in and buy a fire-engine.—Judge.

Too Much.

Banns—You didn't know that I was once engaged to marry your wife, did you?

Danns—No; who broke the engagement?

Banns—I did.

Danns—Did, eh? (Smashes him and pounds him within an inch of his life). There, now; if you ever play a trick on me like that again, I'll kill you the next time!—N. Y. World.

To Be Sure.

Young husband had been wed a week, and then set forth his club to seek. His wife was tempted to demur. His company was dear to her. "You vowed you'd never leave me, Fred. Oh, dear! Will you be long?" she said. "Well, yes," said Fred, as off he flew; "Of course—I shall belong to you."—Judge.

PEACE AT ANY PRICE.

Burglar—Your money or your life. Sleepy Father—Take both, but don't wake the baby.—Detroit Free Press.

The Family Doctor.

New Resident (at Faraway)—Who is the best physician in the place?

High Local Authority—Dr. Germs, by all means. He is becoming a very famous man. Why, people are sending for him from everywhere. I advise you to try him.

New Resident—What is his specialty? High Local Authority (with pride)—Autopsies, I believe, sir.—Judge.

Provisional.

Millie—Are you engaged to the baron?

Dollie—Well, er—no; he hasn't got quite so far that he can propose in English yet.

Millie—Ah, he only knows how to kiss in English so far, I suppose.—N. Y. World.

Consistency.

A young lady, dressed in much false hair, was warbling at the piano, and when her mother summoned her to assist in some household duty her rosy lips opened poutingly and snapped out: "Oh, do it yourself!" and then went on singing: "Kind words can never die."—N. Y. Journal.

As to Fruit.

"Well, you are a peach," exclaimed Adam enthusiastically, as he caught his first sight of Eve.

"No, Adam, dear," cooed Eve, softly, as she nestled tenderly close to his manly form. "We are a pair."—Somerville Journal.

Familiar with His Public.

Composer—I have here a song that I think will commend itself to the musical critics.

Publisher—Musical critics nothing! If it pleases the office boy, it's a go; if not, not. We know our public, sir!—Life.

Merely Protracted.

"They say," said the prudent man, "that a man who never drinks or smokes or stays up late at night always lives to a great age."

"Yes," replied his very blase friend, with a yawn, "that's his punishment."—Washington Star.

Her Right Hand Man.

Mrs. Witherby—What a great aid Mr. Van Wicket must have been at your reception!

Mrs. Von Blumer—Indeed he was. Mrs. Witherby—I understand that he introduced you to most of your guests.—Truth.

His Habit of Smashing.

"No, no; I wouldn't dare to have my husband help when we move."

"Why not?"

"He's a depot baggageman, you know, and he'd be sure to forget himself."—Chicago Record.

No Comparison.

Cleverton—Do you regard an engagement as serious as marriage?

Dashaway—More so, old man. The most serious thing I ever did was to become engaged to three girls at the same time.—Bay City Chat.

Sure to Be True.

"You know, George," she was explaining, "I was brought up without any care."

"Marry me, my darling," said George, "and you shall have nothing else but care."—Detroit Free Press.

Miss Smart (musingly)—Yes; I wonder what wise man made the one you just repeated.—Truth.

No Comparison.

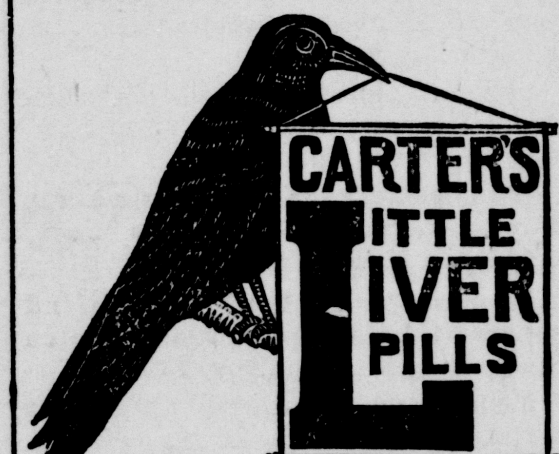

Merritt—She has such a pretty foot. I don't know where you would find anything smaller, do you?

Cora—There is the shoe she wears.—Life.

tions of preserved vegetables can be stored in a space measuring forty inches each way. Milk, the scarcity of which was a great cause of distress during the siege of Paris, is now well provided for. Dr. Autefage's method of "Pasteurizing" milk, which the government has adopted, will preserve this important necessity of life for almost any length of time, rendering it pure and sweet after months, and even years.

The storage of ice can be dispensed with in the storage rooms, and by the use of ammonia machines it can be readily made for household and garison use. This is extremely important as regards preserving meat. One special feature of the policy of the war department is that it has all its arrangements perfected towards immediately collecting, in case of impending danger, hundreds of thousands of carcasses of beef and mutton and hundreds of thousands of fowls. In a few hours almost the city could be substantially provisioned for nearly a year in this regard. Besides this, scores of thousands of cans of preserved meats are kept continually on hand.

BEAUTY IS NO INHERITANCE.

Cosmetics do not beautify, but often destroy a healthy complexion. A natural rosy and healthy complexion cannot be had by the use of cosmetics, but only through the health of the body in general. Nothing is better to secure this result than the genuine imported Carlsbad Sprudel Salt when taken early in the morning, before breakfast (about a small teaspoonful dissolved in a tumblerful of water). It clears the complexion and produces a healthy color. Best taken when out-door exercise can be had. Obtain the genuine article, which has the signature of "EISNER & MENDELSON Co., Agents, New York," on the neck of every bottle.

The Moses of the Negroes.

The life work of Booker T. Washington, the young colored professor, is to teach his race the virtues of thrift, industry and self respect. He is the president and directing spirit of the Tuskegee Normal and Industrial institute at Tuskegee, Ala., one of the most important educational institutions at the disposal of the negroes of the South. He came into prominence lately making a brilliant speech at the Atlanta exposition. He is called the Moses of his race.

OUR TEN PER CENT OFF SALE!

on any garment bought in in our Children's Department on Friday, Saturday and Monday, Novemer 8th, 9th and 11th. We do this each week and we are going to do it again and again. We have made our Boys' and Children's Department a most important feature of our extensive clothing business and we're going to make it more popular.

IT'S JUST THIS WAY

We are in the clothing business to make money. We want to sell all the Children's goods possible. It is our desire to put prices as near cost as any merchant safely can. We want every buyer in our Children's Department to be pleased. What we sell today is not the only thing. It is a part of our business policy to please patrons so well that we can almost count on their future trade with certainty. We are going to draw all of Janesville's mothers into our light and airy Children's Department this fall and winter if they will read our special ads for boys and will wait for our sales. If they do come they will buy if they find what fits and suits. Of course they wont buy if they are not suited—but why can't we sui: them with as large a stock as ours.

How About That Boy of Yours?

Have you got him all ready for the slush and snow and winds of winter? Why not take advantage of our sales? Wait for them. Don't buy your children's clothes on Tuesday, Wednesday and Thursday. You can do better---buy on our special sale days each Friday, Saturday and Monday of each week.

Good Durable School Overcoats at \$2.

Better Grades in Ulsters and Cape Coats at \$3, \$4 and \$5.
